Questions and Answers
October 16, 2015**

- 1.) Is the colfee referring to the clinic just collecting the urine for the drug screen using your Custody and Control Form?
For the Colfee, we would like an analysis of the specimen taken and a result from that analysis, not just the collection
- 2.) For the Hepatitis C... Do you want the price for the Hep C Core Antibody, IgM, Hep C Virus Antibody and / or Hep C Antigen?
For the Hepatitis C, we would like a price for all you list. This is for post-exposure testing, so we will need complete information
- 3.) For Innoculations... Is the DBT referring to the Diphtheria / Pertussis / Tetanus?
For the DBT – this was probably a typo, and it should be the DPT vaccination for Diphtheria/Pertussis/Tetanus
