Speakers:

Oletha Minto, MD, OB/GYN
Debbie Mills, Founder of Gail's Anatomy

we and Gail's Anatomy invite you to breakfast to help us kick off Ovarian Cancer Awareness Month. Dr. Oletha Minto will discuss the importance of taking responsibility for your own health, knowing your body and educating yourself about the warning signs of serious illnesses, such as ovarian cancer. Debbie Mills will tell the story of how the death of her daughter Gail at age 30 from ovarian cancer spurred her to take action to increase women's awareness of this "silent cancer," its symptoms and the crucial importance of early detection.

After breakfast, join your *we* sisters as we walk downtown to dye the Newberry Street fountain teal, spread the word among our community, and hear **Mayor Cavanaugh** read the Ovarian Cancer Awareness Month proclamation.
